

TO : IT Department
FROM : Human Resources Department
DATE : April 15, 2026
SUBJECT : Proposed Roles and Responsibilities of HR and IT Department
for Fixed Assets Management

To strengthen accountability, improve asset monitoring, and ensure proper handling of firm-issued laptops and other IT equipment, we respectfully propose the following **division of roles and responsibilities between the Human Resources Department and the IT Department**:

1) Human Resources Department

The HR Department shall be responsible for the **administrative control and employee issuance process** of company laptops and related fixed assets, including:

- Processing and approving **asset requisitions** based on manpower requests, onboarding, transfers, and role requirements
- Maintaining coordination with requesting departments regarding **laptop allocation needs and reported issues**
- Facilitating the **distribution and issuance** of laptops to employees
- Securing signed **asset accountability forms / acknowledgments**
- Monitoring employee accountability during **movement, resignation, and clearance processes**
- Coordinating with IT for the return and endorsement of assets requiring technical handling

2) IT Department

The IT Department shall be responsible for the **technical management, maintenance, and sourcing support** of all IT-related fixed assets, including:

- **Reformatting, system setup, and device preparation** prior to deployment
- Conducting **repair, diagnostics, and troubleshooting**
- Coordinating with accredited vendors or service centers for **repair and external technical services**
- Providing **technical recommendations** for laptop specifications, upgrades, replacements, and other IT asset requirements
- Assessing asset condition upon return and endorsing units for repair, reuse, or disposal

3) Purpose of the Proposal

This proposed structure aims to:

- Establish **clear ownership and accountability**
- Improve **turnaround time for laptop requests and repairs**
- Strengthen **fixed asset monitoring and documentation**
- Ensure **proper technical assessment before issuance and reuse**
- Support more efficient **employee onboarding and offboarding processes**
